

# Shaul Rosner

Birth Date: July 4, 1997  
Phone: (+972)-527405929  
URL: <https://shaulrosner.github.io/>

Mivtza Kadesh Street 59b  
Tel Aviv, Israel  
[shaul.rosner@gmail.com](mailto:shaul.rosner@gmail.com)

## Education

---

<b>Reichman University</b> <i>Ph.D student, Computer Science, direct track. Expected to graduate summer 2024.</i>	2021 – Present
<b>Reichman University</b> <i>Studies for master's degree in computer science.</i>	2018 - 2021 GPA: 95
<b>Tel Aviv University</b> <i>BSc in mathematics with a focus on computer science.</i>	2013 - 2017 GPA: 87
<b>National Psychometric Exam</b>	2015 Grade 752 (out of 800, percentile 99)

## Professional Experience

---

<b>Visiting PhD Student</b> Hosted by Marc Schroder.	September 2023 - October 2023 <i>Maastricht University</i>
<b>CS Preparatory Workshop Lecturer</b>	2023 <i>Reichman University</i>
<b>Summer Intern</b> I analyzed the landscape of cloud computing from a game theory perspective, with a focus on the impact of software improving ease of use of multiple cloud services (multicloud).	July 2023 - September 2023 <i>IBM Research</i>
<b>Logic and Set Theory TA</b>	2022-2024 <i>Reichman University</i>
<b>Algorithms TA</b>	2021-2023 <i>Reichman University</i>
<b>Calculus 1+2 tutor</b> <i>"The Sharpener" Program</i>	2015-2017 <i>Tel Aviv University</i>

## Academic Publications

---

1. Cost-Sharing Games with rank-based utilities - Submitted to TCS - joint work with Tami Tamir
2. Throughput Maximization in a Scheduling Environment with Machine-Dependent Due-dates - Submitted - joint work with Tami Tamir
3. Who Benefits from a Multi-Cloud Market? A Trading Networks Based Analysis - Submitted - joint work with Segev Wasserkrug, from my time at IBM
4. Entrepreneurship Facility Activation Games - The 16th International Symposium on Algorithmic Game Theory (SAGT), September 2023 - joint work with Tami Tamir
5. Scheduling games with rank-based utilities – Games and Economic Behavior (volume 140)- joint work with Tami Tamir
6. Cost-Sharing Games with rank-based utilities - The 15th International Symposium on Algorithmic Game Theory (SAGT), September 2022 - joint work with Tami Tamir

7. Race Congestion Games - 32nd Stony Brook international conference on game theory - Poster Session - June 2021
8. Race Scheduling Games - The 13th International Symposium on Algorithmic Game Theory (SAGT), September 2020 - joint work with Tami Tamir

#### *Awards & Honors*

---

<b>Teaching Excellence Award</b>	
<i>Reichman University</i>	2022
<b>Competitive Programming - 40th place</b>	
<i>SWERC</i>	2021
<b>Honors from Center 7140 - IDF</b>	for my work in development 2019
<b>Second Place in Math Olympiad</b>	
<i>Tel Aviv - Regional</i>	2012

#### *Military Service*

---

<b>Researcher in an Audio Research Section at IDF Intelligence</b>	2019-2021
My job was to plan, train, implement, and monitor algorithms for analysis of audio. This included everything from researching solutions, modifying them to suit the data, implementing them as part of a software pipeline, and working with users to find issues.	
<b>Software Developer in a Research Section at IDF Intelligence</b>	2017-2019
My job was to develop and maintain software used by signal processing researchers. As part of my role I also implemented, optimized, and wrote algorithms for various purposes.	
<b>Software Development Course</b>	February 2017- July 2017

#### *Programming Knowledge*

---

I program at a high level in python and c#. I also have work experience with java, matlab, javascript (node, angular, some react), c, c++.

This includes experience working with a range of libraries and technologies for solving various challenges, including pytorch, kald, sklearn pandas, sql, elasticsearch, flask, kafka, docker, etc.
